

**US Army Corps  
of Engineers®**

## Lexington Harbor, MI

### Harbor Features

- Located on the west shore of Lake Huron about 20 miles north of Port Huron, MI.
- Authorization: River & Harbor Act
- Shallow Draft recreational harbor.
- Project depth between 8 - 10 feet.
- Over 5 acres of maintained Federal channel.
- More than 2,400 feet of breakwaters.
- Dredged material is placed along the beach as beach nourishment.
- Major stakeholders include Michigan DNR, Lexington State Dock, and various fishing charters and small boaters.

### Project Needs

- Requires periodic maintenance dredging on a 3 to 5 year cycle of approximately 5,000 cubic yards. The placement of dredged material satisfies Section 111 requirements for the project.
- Navigation structures are primarily maintained by Government floating plant.

### Consequences of Not Maintaining the Project

- Loss of jobs locally.
- Loss of recreational and charter fishing in the area.

### Transportation Importance

- This project serves as an important Harbor of Refuge as well as charter fishing and recreational navigation interests.
- The local community has established a significant infrastructure around the harbor facilities that generates income from harbor users and visitors to the area.
